State Transportation Improvement Program (STIP) Project No. I-2513

Virtual Meeting with Consulting Parties

Regarding

Section 106 Memorandum of Agreement

**Wednesday
July 1st**

**9:00a.m.–
11:00 a.m.**

**Register online
NOW!**

A virtual meeting to discuss mitigation for two adversely effected historic properties is being held on Wednesday, July 1st at 9 a.m. The goal of this meeting is to produce a Memorandum of Agreement (MOA) between the North Carolina State Historic Preservation Office, the Federal Highway Administration and the N.C. Department of Transportation. Consulting parties and property owners will be given the opportunity to comment on the MOA before finalization.

Pursuant to 36 CFT Part 800, regulations implementing Section 106 of the National Historic Preservation Act, the Federal Highway Administration has determined that the I-26 Connector project will have an adverse effect on Riverside Cemetery within the Montford Area Historic District and archaeological site No. 31BN826.

While this meeting is open to the general public, the purpose of this meeting is to specifically address avoidance, minimization, and mitigation to the impacted historic properties noted above. Register for the meeting at register.gotowebinar.com/register/5337732436810573072. Information on the project and materials pertaining to the Memorandum of Agreement can be found on the project website: www.ncdot.gov/projects/asheville-i-26-connector under Project Documents.

For additional information, please contact NCDOT Senior Project Manager, Kevin Moore (919-707-6287 or kemoore2@ncdot.gov).

NCDOT will provide auxiliary aids and services under the Americans with Disabilities Act for disabled persons who wish to participate in these meetings. Anyone requiring special services should contact Jamille Robbins, (jrobbins@ncdot.gov or 919-707-6085), so that arrangements can be made.
